

Message From Justin - CEO at North Kent Mind

Dear Service Users,

The fast changing circumstances due to Coronavirus, and the advice from the Government as to how we should proceed, are affecting us all.

At North Kent Mind our support workers and therapists are working from home as far as they are able, and where you have had a particular worker involved in your support or therapy they will be getting in touch with you by phone or email, if they have not done so already, to continue this work.

At least for the time being, we are able to provide some admin staff in our offices in Dartford, to take calls and follow up answerphone messages. However, if you need to get in touch with us, and have the technology, it is far better to email us at admin@northkentmind.co.uk

We do recognise how important all our services are to our clients and I want to personally reassure you that we are all doing all we can to provide you with the best services that are possible during this difficult period.

Although these times are challenging, it is my hope that we will learn to pull together and connect with one another in new ways. I also recognise that as your local mental health charity, we may well have to create new initiatives to adequately support the individuals and communities in North Kent.

I also want to take this opportunity to thank you for your support and understanding.

Please do stay connected.

Best wishes,

Justin Bateman
CEO
